

EVAN ZHANG

832-529-8852 | evanzhang@utexas.edu | Austin, TX | [LinkedIn](#)

EDUCATION

The University of Texas at Austin, Austin, TX

Expected Graduation Date: May 2027

Bachelor of Computer Science - GPA: 3.89

Relevant Coursework: *Cloud Computing, Energy Efficient Computing, Principles of Computer Systems, Computer Organization and Architecture, Data Structures, Matrices and Matrix Calculations, Discrete Math for Computer Science*

EXPERIENCE

Robot Perception and Learning Lab, UT Austin

4/2024 - Present

AI Research Assistant, Co-author

Paper: [Multi-Task Interactive Robot Fleet Learning with Visual World Models](#)

- Contributed to the publication of the design of a multi-task interactive robot fleet learning framework that enhances robot performance through runtime monitoring and human-in-the-loop methods.
- Utilized a visual world model to predict task outcomes, improving error prediction accuracy and reducing human workload over time.
- Demonstrated a 45% increase in policy performance in real-world settings and maintained over 95% combined policy performance in both simulation and real-world evaluations.

Uber Technologies, Inc.

6/2022 - 7/2022

Product Management Intern

- Collaborated with a six-member team to conduct comprehensive research and develop an innovative system to enhance safety measures for adolescent users within the Uber platform.
- Delivered a compelling presentation to the Uber product manager, showcasing the proposed design and its potential impact.
- Engaged in market research, product management, UI/UX design, development, testing, and marketing for a new Uber mobile app under the mentorship of Uber product managers.

Aidoo.ai, Austin

8/2024 - Present

Software Engineer Intern

- Collaborated with designers and senior developers to implement responsive and user-friendly interfaces for a social networking app, improving user experience and accessibility.
- Developed and integrated dynamic components using JavaScript frameworks, enhancing app functionality and interactivity.

PROJECTS

Seed, App Development

8/2024 - Present

- Worked with a team to design and implement a subscription-based app offering 10-minute daily lessons on topics like credit management, economic structures, and stock market investing for high schoolers to begin their learning process.
- Implemented the front end using Javascript, React Native, and Expo for a seamless user interface on iOS.

The Study Buddy, Web-application Development

7/2024 - 9/2024

- Built a Google Chrome extension centered around helping students study better through a Pomodoro Timer, a to-do list, web-search functionality, and an automatic Anki deck creator using HTML, CSS, and JavaScript.

Personal Portfolio Website, Web-application Development

7/2024 - Present

- Developed a personal portfolio website using HTML, CSS, and JavaScript that showcases projects and skills through a responsive and interactive design.
- Implemented dynamic content, optimized site performance, and ensured cross-browser compatibility to enhance user experience.

SKILLS & HONORS

Languages: Java, JavaScript (including React), Python, C/C++, HTML/CSS, Flutter, SQL

Awards: U.S.A. Computing Olympiad (USACO) - Silver Division, Chevron U.S. REACH Scholarship 2023
